

BURLINGTON ROAD SHOPS KEPT BUSY

Galesburg and Aurora. All Departments Booming, Feeling Wave of Prosperity.

ARE WORKING ON FULL TIME

All of Old Employees Taken Back and Others Are Being Added to the Forces.

Galesburg, Ill., Nov. 23.—The wave of prosperity has hit the Chicago, Burlington & Quincy railroad. This was admitted today by Master Mechanic W. A. Kelly of the Burlington here. He said that all departments under his supervision are now working on full time, an order to this effect being issued on Friday. The order became effective today. At Aurora all shops of the road are working full time.

This is the first time in many months that the Burlington has operated all of its departments on full time and also increased its forces materially. For some months back, there has been an evident slack in business and the order putting all shops back on full time comes with the return of prosperity.

The announcement will be received with general satisfaction by all of the railroad employees here, as well as the people of Galesburg in general. Business in the city will be greatly revived and things are likely to go along again smoothly for some time to come.

Master Mechanic Kelly seemed well pleased to post the notice which places all the departments here on full time. He said that men are being taken on in all departments. The force of carpenters in the car repair yards has been materially increased and more are to be hired in the next few weeks.

Situation at Aurora.

The following from the Aurora Beacon-News speaks of the return of prosperity to the Burlington there:

"The several hundred employees of the Burlington railroad locomotive shops are the latest Aurora workers affected by the returning era of prosperity. Notices signed by James A. Carney, superintendent of shops, were posted late yesterday afternoon notifying the men that until further notice they will work full time, 50 hours a week.

"In all departments of the locomotive shops the men will work nine hours on the first five days of the week and until noon on Saturdays. The locomotive shops have not worked ten hours a day for several years because of the poor lighting facilities. A majority of the employees of the shops have been in favor for several years of taking a half holiday on Saturday.

"The order issued in the locomotive departments puts the entire shop, approximately 1,500 men, on full time. There were 1,471 men on the last pay roll, but in the last few days a number of men have been put on.

"Heavy freight traffic and the need of all the available rolling stock is the reason given by the officials for the rush in the shops. There is enough repair work on hand now, they say, to keep the present force busy and on full time all winter.

"Other big Aurora shops are busy now. The employees of the American Wood Working Machinery Co. are now working 59 hours a week, 10 hours on the first five working days and nine hours on Saturday. The fact that new machines are being installed is an indication, employees believe, that more men are to be given work in the factory."

WILL NOT PROHIBIT MOVIE MASTERPIECE

That the city authorities will not attempt to prohibit the production in Moline of the Birth of a Nation was indicated by the report submitted to the city council in session yesterday afternoon by City Attorney James Johnston, in which he expressed an opinion that the city officials have no legal right to bar the picture.

MILAN.

The members of the Milan Methodist church gave a reception for the new minister, Rev. F. N. Wright, on Tuesday night. Many members of the church were present and the evening was passed by playing games and having contests. Doughnuts and coffee was served. Rev. Mr. Wright and family came here in latter part of September.

Mrs. Vern Becker of Moline visited with her mother Mrs. P. H. Philbar Friday.

Mrs. Henry Wilson left Milan for an indefinite visit with her son Earl in Moline.

Mrs. Maud McCoy of Rock Island visited Wednesday with her brother John Campbell and family.

Miss Edith McCullough of Rock Island visited with Mrs. Clara Cropper on Thursday.

Mrs. Ed Andre and sister Miss Mable Smith are visiting with friends in Dayton.

Rev. F. N. Wright of the Methodist church, spoke to the Boys' club Thursday evening on the subject of "How Gold Is Mined in California." The
